

CAROUSEL Solid Resin Infused Hardwood

WHAT IS IT?

Carousel Solid Resin Infused Hardwood represents a revolution in the flooring industry. This new product features 100% Post Industrial Recycled Hardwood, made from mulberry branches discarded by the silk industry. The branches from the mulberry trees are carefully cut from the tree to allow new branches to grow back. The leaves on these branches are then harvested and fed to silk worms to create the valuable silk fibers. The left over branches are then shredded into strands. These strands are then layered, infused with a VOC-Free resin and cold pressed for an extremely unique and 100% environmentally friendly product.

PRODUCT SPECS

THICKNESS 9/16"
WIDTH 3 7/8"
LENGTH 72"
EDGE Micro Bevel

FINISH

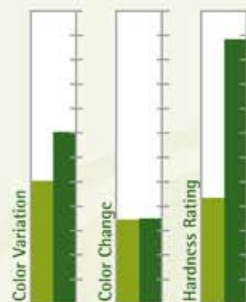

Kluppp Miraphen Aluminum Oxide with Anti-Scratch Top Coat

INSTALLATION

Glue or Staple/Nail

American Red Oak Carousel

*Environmentally Responsible,
 Quality Conscience,
 Fashion Inspired,
 ...GreenWood Products*

COLOR VARIATION

Carousel features moderate color variation. (Stained Product)

GRAIN VARIATION

Carousel features moderate to extreme grain variation.

COLOR CHANGE

Carousel will experience little to no color change over time. (Stained Product)

HARDNESS

3270 PSI

WARRANTY

Lifetime Structural
30 Year Residential Finish
5 Year Commercial Finish
